

# Accelerate Hospital Clinical Improvement

## Introducing the Healthgrades Quality Insights Platform

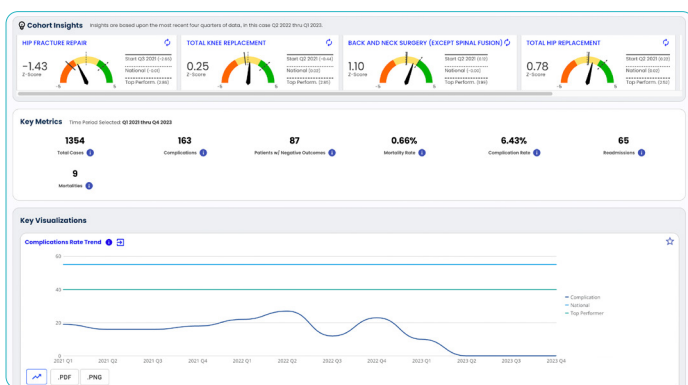

For more than 20 years, Healthgrades has been committed to helping hospitals transform clinical data into better patient care. Despite having greater access to clinical datasets than ever before, hospitals often lack the resources needed to leverage their data to drive improvement and maintain high-quality care.

Through a comprehensive suite of tools and customizable dashboards, the Quality Insights Platform helps hospitals effortlessly **visualize**, **analyze**, and **react** to complex clinical data.

### Platform Features

- Track and report on key performance metrics
- Analyze risk-adjusted clinical data in patient- and provider-level detail
- Sort outcomes by type and specialty
- Compare performance against national and top-performer benchmarks
- Connect to EMR systems for data uploads and refreshes

### Platform Benefits

- Early identification of worsening outcomes
- Actionable insights based on clinical data
- Streamlined improvement process that engages all stakeholders
- Always-on access to a secure, self-service data environment
- Cost savings from reduced administrative burden and fewer complications

EvergreenHealth

**"Healthgrades offers actionable and valuable clinical data and insights that help increase clinician engagement and change practices for the better."**

—Scott Stuart, MD, Clinical Medical Director

## Specialty-Level Analysis

- Track clinical outcomes and indicators in multiple service areas
- Compare performance to national and top-performer benchmarks
- Identify and react to key drivers of clinical performance trends

## Patient-Level Analysis

- View patient-specific summaries including complications, comorbidities, and individualized predicted risk
- Assess and export outcome reports
- Add patients to customizable watchlists

## Physician-Level Analysis

- View provider performance summaries
- Utilize risk-adjusted patient acuity models
- Evaluate cases with negative outcomes

Schedule a full demo of the Quality Insights Platform and see how Healthgrades can help accelerate your hospital's clinical improvement efforts.
